Preface

The Nevada Department of Motor Vehicles has prepared this guide to assist the motor vehicle industry when conducting business with the Department. It was created as an informational and instructional reference, and attention to the detailed information and examples will ensure proper completion of forms required to register and/or title vehicles in the State of Nevada.

Familiarity with the occupational licensing information and compliance with the licensing requirements will ensure that the business records on file with the Department are accurate and that they reflect the correct status of a business license. A vehicle industry occupational license is considered a privileged license. The business principal is responsible for compliance with all requirements pertaining to the documents submitted to the Department.

If you have any suggestions that may help improved this guide, please provide them in writing to:

## SECTION XI – GLOSSARY/INDEX

- Glossary .................................................................................................................. XI-3
SECTION I – GENERAL INFORMATION
Guidelines

- Always type or print in black or dark blue ink.
- Owner’s full legal name and address information must be recorded on registration and title documents exactly as it reads on the owner’s driver’s license.
- Ensure the Vehicle Identification Number (VIN), year, make, odometer readings and registered owner and legal owner information are consistent on all documents.
- Signatures must always be handwritten, unless waived by the Department because the submittal is done by electronic means. A printed release will not be accepted unless accompanied by a notarized or witnessed statement (from the person in question) stating the signature is a legal signature.
- Do not use correction fluid or correction tape.
- Do not alter any information on the documents.
- A release should be the same as it appears on title documents, i.e., Elizabeth should sign as Elizabeth.
- All documents must be originals, unless certified true copies of the original documents.

Vehicle Identification Number Information

Since 1954, American automobile manufacturers have used a Vehicle Identification Number (VIN) to identify and describe a vehicle.

Since 1981, all manufacturers of vehicles sold in the United States are required to use a standardized 17-digit VIN structure. When the department is provided with a vehicle with an 18-digit VIN, the VIN will be verified before the vehicle information is entered.

Variations exist in the location of a VIN and in the systems used for a VIN; they may vary by year of manufacture and between manufacturers.

A VIN should always be verified by a physical inspection of the vehicle.

**Importance of Accuracy**

The Department of Motor Vehicles uses the VIN as the primary identifier for entry and retrieval of records. It is therefore critical that all documents are completed using the correct VIN.

**TO AVOID ERRORS:**

- Use the entire VIN at all times.
- Ensure the VIN is entered or recorded accurately. It is best to use block letters.
- If the VIN is handwritten, try to avoid the following most common errors:

<table>
<thead>
<tr>
<th>LETTER</th>
<th>MAY BE MISTAKEN FOR</th>
</tr>
</thead>
<tbody>
<tr>
<td>B</td>
<td>13 or 8</td>

<tr>

</tr>
<tr>

</tr>
<tr>

</tbody>
</table>

“I” and “1” are often confused. The letter “I” is rarely used in a VIN.

The letter “O” is never used in a VIN, with the exception of state assigned VINS, such as those that are assigned by the states of Colorado (i.e., COLO123456) or Missouri (DR000000MO or DRMVB0000000000MO).
Notaries Public

A licensed Nevada dealer’s signature is not required to be acknowledged by a Notary Public on documents the dealer must file with the Department, except in regard to deposit in lieu of a bond. Nevada Revised Statutes (NRS) 482.3275

If a document must be notarized, the provisions of NRS 240.010 through 240.150 must be followed.

A Notary Public may not perform any act authorized by NRS 240.065 if he or she:
1. Executed or is named in the instrument acknowledged or sworn to;
2. Will receive directly from a transaction relating to the instrument any commission, fee, advantage, right, title or interest, property or other consideration in excess of the authorized fees; or
3. Is related to the person whose signature is to be acknowledged or sworn to as a spouse, sibling, or lineal ancestor or descendant.

Attempt to Contact

When the Department of Motor Vehicles requires evidence of an “Attempt to Contact” from the owner or lienholder of a vehicle, the following is required:

- The owner or lienholder must be contacted, requesting signature(s) on the documents required to complete the transaction (Bill of Sale, Application for Duplicate Title etc., depending on the requirements). Signatures must be notarized.

- **Caution:** Do not mail original ownership documents that are in your possession. Mail photocopies of the ownership documents, and request the owner contact you to arrange signing the original documents.

- If a signature is required on an original document, and it is a secure document (i.e. Secure Power of Attorney, Title) a signed photocopy is not acceptable.

- A letter should be sent Certified Mail – Return Receipt Requested or by an alternative delivery service (i.e. FedEx, UPS, DHL, OnTrac, or a local courier service) with a method for tracking the letters delivery status. A return receipt or the alternative provides evidence of delivery or the attempt to deliver. Receipts issued for the delivery service are required for proof of “Attempt to Contact.” Retain copies of everything sent to the owner or lienholder.

- If the letter is returned with a forwarding address, the letter is to be forwarded to the new address by Certified Mail – Return Receipt Requested or an alternative delivery service (i.e. FedEx, UPS, DHL, OnTrac, or a local courier service) with a method for tracking the letters delivery status.

- If the letter is returned to you as “Undeliverable,” do not open it; or

- If a signed Return Receipt or an alternative delivery services “Proof of Delivery” is received and fifteen (15) days have passed since the date of receipt:
  - All documents for the vehicle, along with the returned letter, or the proof of delivery will need to be brought to the Department of Motor Vehicles.
  - The Department will review all paperwork and recommend what steps still need to be taken or will assist with the registration and titling of the vehicle. **Note:** This does not guarantee processing can be completed.
• If the owner(s) or lienholder(s) provide the necessary signatures, the receipt or returned letter is not needed.

• Prior to registration or title issuance, a VIN inspection (VP-15) is also required for the vehicle being registered.

Motor Homes

Motor homes are vehicles described as permanently attached to a chassis and are designed for use as temporary living quarters. Nevada Revised Statutes define three types of motor homes.

Note: The legal maximum width of a recreational vehicle is 102 inches excluding mirrors, lights and other devices required for safety; and an awning and any hardware used to attach the awning, but it cannot extend beyond any mirror.

Mini motor home (NRS 482.066): A vehicular-type unit designed for temporary living quarters for travel, camping or recreational use, which is:
1. A structure attached permanently on a self-propelled chassis; or
2. A portable unit designed to be affixed permanently to a truck chassis with cab, which is designated as a mini motor home by the manufacturer.

Motor home (NRS 482.071): A structure:
1. Attached permanently to a self-propelled motor vehicle chassis;
2. Designed as a temporary dwelling for travel, recreational or camping use; and
3. When assembled for the road, having a maximum body width of 102 inches.

Chassis-mount camper (NRS 482.0151):
A portable unit designed to be permanently affixed to a truck chassis and cab, and so constructed as to provide temporary living quarters for travel, camping or recreational use.

In all cases, the chassis/frame number is used as the vehicle identification number (VIN). The make of the vehicle is the motor home name, not the chassis/frame manufacturer.

Example: Winnebago makes the Itasca and Fleetwood makes the Tioga. The makes are therefore Itasca and Tioga; Winnebago and Fleetwood are not used.

The vehicle year is established by the manufacturer on the vehicle’s original documentation.

In all cases, the vehicle length must be included on the registration and title documents as part of the vehicle description.

Recreational park trailer (NRS 482.1005)
means a vehicle, which is primarily designed to provide temporary living quarters for recreational, camping or seasonal use and which:
1. Is built on a single chassis mounted on wheels;
2. Has a gross trailer area not exceeding 400 square feet in set-up mode; and
3. Is certified by the manufacturer as complying with Standard No. A119.5 of the American National Standards Institute.

Note: The Department will only issue a title to a Recreational Park Trailer having a maximum width of 102 inches. Moving a Recreational Park Trailer requires a special movement permit issued by the Department of Transportation.

Transmittals to the Department

It is advisable (not mandatory) for dealers to submit a transmittal with all title documents.

Two copies of the transmittal should be submitted. The transmittal form must be completed in full, and must identify the name and address of the business. In cases where title documents are resubmitted, write “RESUBMITTAL” in red across the top of the transmittal form.

Both copies will be date stamped, with the date of receipt by the department.

One copy will be returned to the submitting business as long as they include a self-addressed stamped envelope along with the transmittal.

One copy is placed in the Department files

Please note the Department does not supply the transmittal form. However, the sample form details the information that must be provided when submitting title documents to the Department.
Short-Term Lessors

6-Percnet Governmental Services Fee Charged on Rental of Passenger Vehicles

Upon the lease of a passenger car by a short-term lessor in this state, NRS 482.313 requires the short-term lessor to charge and collect from the short-term lessee a fee of 6 percent of the total amount for which the passenger car was leased, excluding any taxes or other fees imposed by a governmental entity.

- The amount of the fee must be included in the lease agreement and listed separately from all other charges.

- The fee must be identified as “Governmental Services Fee” and must be submitted quarterly to the Nevada Department of Taxation.

The Department of Taxation will mail a Passenger Car, Governmental Services Fee Return (Form STS) to each short-term lessor prior to the end of each calendar quarter.

The Passenger Car, Governmental Services Fee Return (Form STS) must be completed in full by short-term lessors reporting leases of passenger vehicles by listing the total dollar amount of all leases on which the 6-percent fee was charged during the previous calendar quarter. The return form must be filed even if no leases were made or fees collected. Two sets (an original and duplicate) of the return forms must be submitted to the Department of Taxation, along with the remittance of fees, on or before the end of the next month following the end of the calendar quarter.

The records, receipts, invoices and other pertinent papers documenting the leases must be available at all times during normal business hours for examination and copying by the Nevada Department of Taxation or the Nevada Department of Motor Vehicles or its authorized agents.

The records, receipts, invoices and other pertinent papers must be preserved intact for at least four years after the date the record, receipt, invoice or paper was made.

If you have any questions, please contact State of Nevada, Department of Taxation.

SECTION II - OWNERSHIP DOCUMENTS AND FORMS
Manufacturer’s Certificate of Origin

NRS 482.423

Manufacturer’s Statement of Origin/Certificate of Origin (MSO/MCO) means a document similar to a certificate of title or certificate of ownership issued by a manufacturer that must be completed and executed by the seller of a new vehicle when the vehicle is sold or leased for a fixed period of more than 31 days for the first time.

The Manufacturer’s Certificate of Origin (MCO or MSO) must be assigned by the manufacturer to the dealer, and properly reassigned by the dealer to the purchaser of the vehicle.

The MCO or MSO is a secure document, which means there are security features contained on it that prevent erasing, altering or unauthorized reproduction.

Security features may include:

- Intaglio printing - a printing process where an engraved plate meets the paper under extremely high pressure forcing the paper into the incisions below the surface of the plate.
- High-resolution printing—a printing process that achieves excellent art clarity and detail quality approaching that of the intaglio process.
- Security paper—paper containing a security watermark and/or a security thread and has been chemically treated to detect chemical alterations.
- Erasure-sensitive background inks—a process whereby the text is printed in a dark color ink over a fine line erasure-sensitive prismatic ink tint.

Manufacturer’s Certificate of Origin
(Front)

The MCO contains the following:

1. Date – The date the MCO was completed by the manufacturer
2. Description of Vehicle – Must be completed by the manufacturer
3. Dealer or Distributor – The name of the dealer or distributor the vehicle was initially delivered to
4. Issuing Manufacturer’s Information – The name and address of the manufacturer and the original signature of the manufacturer’s authorized representative
I, the undersigned authorized representative of the company, firm or corporation named below, hereby certify that the new vehicle described above is the property of the said company, firm or corporation and is transferred on the above date and under the Invoice Number indicated to the following distributor or dealer:

NAME OF DISTRIBUTOR, DEALER, ETC

It is further certified that this was the first transfer of such new vehicle in ordinary trade and commerce.

1. Name and Address: The full legal name and address of the purchaser.
2. Odometer Reading: The current odometer reading for the vehicle.
3. Name of Dealership: The name of the dealer as shown on the front of the MCO.
4. Signature: The signature of the authorized dealer representative.
5. Notarization: Not required to be completed in Nevada.
6. Odometer Disclosure: Required to be completed for a retail sale. A separate federal odometer disclosure statement may be provided in lieu of completing this section.
7. Lienholder to be recorded: This section must be completed.
   o If the new Certificate of Title is to reflect a security interest in the vehicle the lienholder’s name, address and Nevada Electronic Lien Title (ELT) number must be recorded.
   o Except for persons who are not normally engaged in the business or practice of financing vehicles, all lienholders shall use the electronic lien system to process all notifications and releases of security interests through electronic batch file transfers.
   o If there is no lienholder, “None” must be recorded in this section.

Note: A Manufacturer’s Certificate of Origin is invalid if it has been altered in any manner. The reassignments can only be completed between dealers. If the vehicle is sold to an individual, the ownership paper work must be submitted to the Department.
Nevada Certificate of Title
NRS 482.285 and 482.400

There are currently several valid styles of Nevada Certificates of Title (Form VP-2 and RD-2) in circulation. For the purpose of this guide, only the three most recent styles will be addressed (Revision 1/2016, 8/2010 and 1/2006).

The registered owner or seller must sign the Certificate of Title exactly as the name appears on the face of the Certificate of Title:

- If there is more than one registered owner or seller, joined by “and,” the signature of each registered owner or seller is required.
- If there is more than one registered owner or seller, joined by “and/or” or “or,” only one of the owner or seller’s signature is required.
- If there is more than one registered owner or seller, and not joined by “and” or “and/or” or “or” the signature of each registered owner or seller is required. The Department considers no name indicator as “and” in these cases.
- If the owner or seller information is in the name of a business, the name of the business must appear along with the signature of an authorized business representative.

Buyer information must be completed indicating exactly how the new Certificate of Title is to read, and it must show the buyer’s full legal name.

Lienholder Section: This section must be completed.

- If the new Certificate of Title is to reflect a security interest in the vehicle the lienholder’s name, address and Nevada Electronic Lien Title (ELT) number must be recorded.
- Except for persons who are not normally engaged in the business or practice of financing vehicles, all lienholders shall use the electronic lien system to process all notifications and releases of security interests through electronic batch file transfers.
- If there is no lienholder, “None” must be recorded in this section.

18. Printed Full Legal Name and Address of Buyer(s): Record the registered owner’s full legal name exactly as it appears on the customer’s driver’s license, identification card, or business license. This name will be recorded on the vehicle registration certificate and Certificate of Title. Customers purchasing a vehicle(s) for a business are not required to present their business license.

Note:

- If the title is to read “doing business as” enter “DBA” preceding the business name.

- If there is more than one Lessee, separate the Lessees with a semi-colon “;”.

19. Nevada Driver’s License, Identification Card Number, or FEIN for businesses: Enter the number based on the document presented during the purchase transaction. The DMV will use these numbers to ensure the full legal name of the owner is placed on the registration and title.

Duplicate Certificate of Title  
Application for Duplicate Nevada Certificate of Title  
(Form VP-12)

If a Nevada Certificate of Title has been lost, stolen or mutilated, a duplicate Nevada Certificate of Title may be obtained by completing the Application for Duplicate Nevada Certificate of Title.

The Application for Duplicate Certificate of Title (Form VP-12) must be completed in full and submitted by the owner of record on file with the Department. The application must be signed and witnessed by a notary public or an authorized Nevada Department of Motor Vehicles representative.

The “Registered Owner(s)” and “Lienholder” areas must be completed exactly as shown on the current title record. If the original Certificate of Title was issued with “and” between the registered owner’s names, all owners must sign the application. If the original Certificate of Title was issued without an indicator such as “and” or “or” then all owners must sign the application. The Department considers the lack of a name indicator as “and” in these cases.

If a lienholder is applying for the duplicate Certificate of Title, the lienholder must complete the application.

The “Requested By” area must be completed if the duplicate Certificate of Title is to be mailed to a different address or person. A notarized letter of authorization is also needed unless the requestor is a licensed Nevada Dealer.

If the lien has been satisfied, for a printed title, a notarized lien release signed by the lienholder is required. An Electronic Lien Title (ELT) lien is released electronically by the lienholder and a title without the lienholder is printed and sent to the registered owner.

A duplicate title cannot be requested for an Electronic Lien Title (ELT). The lienholder is responsible for electronically requesting a printed title.

Bonded Title  
NRS 482 and NRS 487

If an applicant who is seeking a certificate of title to a vehicle from the Department pursuant to NRS 482 or NRS 487, is unable to satisfy the Department that the applicant is entitled to a certificate of title, the applicant may obtain a new certificate of title from the Department by:

a) Filing a bond with the Department;

b) Allowing the Department to inspect the vehicle to verify the vehicle identification number and identification numbers, if any, on parts used to repair the vehicle; and
c) Authorizing the Department to conduct a search of the history of the vehicle through any national crime information system, including, without limitation, the:

1) National Crime Information Center, as defined in NRS 179A.061; and
2) National Motor Vehicle Title Information System of the United States Department of Justice.

Any person damaged by the issuance of a certificate of title pursuant to this section has a right of action to recover on the bond for any breach of its conditions, except the aggregate liability of the surety to all persons must not exceed the amount of the bond. The bond must be inforce for three (3) years from the date of issuance.

The bond required must be:

a) Executed by the applicant as principal and by a corporation qualified under the laws of this State as surety;

b) In an amount equal to one and one-half times the value of the vehicle Manufacturer’s Suggested Retail Price (MSRP); and

c) Conditioned to indemnify any:

1) Prior owner or lienholder of the vehicle, and his or her successors in interest;
2) Subsequent purchaser of the vehicle, and his or her successors in interest; or
3) Person acquiring a security interest in the vehicle, and his or her successors in interest, against any expense, loss or damage because of the issuance of the certificate of title or because of any defect in or undisclosed security interest in the applicant’s right or title to the vehicle or the applicant’s interest in the vehicle.

Bonded titles have specific information listed on the face of the title:

a) At the top, center of the title, “BONDED VEHICLE TITLE”

b) The title number starts with “BT” and followed by nine numbers.

c) Brand of “Bonded Vehicle” listed under the brand section.

d) Statement printed at the middle of the title.

Ownership can be transferred with a bonded title in Nevada. Ownership transfer outside Nevada may not be allowed. Prior to purchasing the vehicle check to verify transfer is allowed. The owner that received the bonded title must keep the bond in force for the entire three (3) years. Selling the vehicle does not relinquish the requirement of the bond.
All bonded titles are processed in Carson City by Central Services. Please contact Title Research at 775-684-4810 for information regarding the bonded title process.
Odometer Mileage Disclosure

NRS 482.245, NRS 484.606 to 484.6069

Federal and state laws and regulations require an odometer disclosure be completed upon transfer of ownership for vehicles nine years old or newer.

The odometer disclosure must be made in writing on the secure title document or on the secure reassignment document if one is used to reassign a title.

If the vehicle has never been titled, i.e., a new vehicle or one coming into the country for the first time, the disclosure can be made on a separate document. This document does not need to be secure, however, the same person (person includes company or corporation) cannot sign the disclosure as both the buyer and seller.

The seller and purchaser must jointly attest to the odometer reading shown on the vehicle’s odometer apparatus at the time of transfer of ownership of the vehicle.

If the odometer reading is not the actual mileage of the vehicle, the appropriate designation must be made on the odometer disclosure.

If a vehicle does not have an odometer, the disclosure must include a statement to that effect, and the true mileage of the vehicle is not known.

An odometer disclosure must be completed when an out-of-state vehicle is titled for the first time in Nevada, even if there is no ownership change.

An odometer disclosure must include:

- The printed name and signature of each buyer and seller, the same person (person includes company or corporation) cannot sign the disclosure as both the buyer and seller.
- The current address of each buyer and seller.
- A complete vehicle description (make, model, year, body type and VIN).
- The current odometer reading, excluding tenths.
- The date of the transfer of ownership.

A Secure Power of Attorney must be used to disclose the mileage of the vehicle when a Certificate of Title or ownership is physically held by a lienholder or when a duplicate Certificate of Title or ownership is applied for. Refer to the Secure Power of Attorney section for additional information.

The original copy of the odometer disclosure statement must be submitted to the Department with the title documents.

Leased Vehicles

Before a transfer of ownership is documented, each lessor of a leased motor vehicle shall notify the lessee in writing the lessee is required to provide a written odometer...
disclosure to the lessor regarding the mileage. The disclosure may be made on either the Certificate of Title, or if the reassignment area is filled, using the Dealer Reassignment of Title form. This disclosure must contain a reference to the federal law and must state that failure to complete or providing false information may result in fines and/or imprisonment. Reference may also be made to applicable state law.

Both the lessee and lessor must sign the disclosure.

**Repossessed Vehicles**

The odometer reading for vehicles that have been repossessed must be reported by the legal owner of the vehicle (lienholder).

**Unrecovered Stolen Vehicles**

Vehicles that are transferred to an insurance company when a payoff is made on an unrecovered stolen vehicle are exempt from the odometer disclosure requirements due to the unavailability of the vehicle.

**Miles versus Kilometers**

To accurately reflect the true reading of the odometer apparatus, the documents (title, reassignment, etc.) should indicate whether the odometer records the distance traveled in miles or kilometers.

When the title is processed, the kilometers will be converted to miles. The kilometers are multiplied by 0.6214 then round to the nearest whole number, the answer is used as the miles.

**Secure Power of Attorney**

A Secure Power of Attorney (VP-221) is used when a Certificate of Title is physically held by a lienholder, or when a Certificate of Title has been lost. The owner of a vehicle may give power of attorney to a buyer for the purpose of mileage disclosure. The authorization to do so must be conveyed by a secure power of attorney.

The Secure Power of Attorney form may be purchased from any Occupational Business and Licensing section of the Department of Motor Vehicles. This is a $.50 fee for each form along with a $1.00 Technology fee.

Erasures, corrections or the use of correction fluid to correct any information other than an address voids the form. If a correction to an address is made, an Erasure Affidavit (Form VP-19) must be completed and attached to the Secure Power of Attorney. The Erasure Affidavit cannot be used for errors made to the Odometer statement.

The buyer and the seller must retain a copy of the statement.

Salvage Titles  
(Form VP2S and RD2S)

Salvage Title (NRS 487.810) means a title for a vehicle, which contains a brief description of the vehicle, including, insofar as data may exist with respect to the vehicle, the make, type, serial number and motor number, or any other number of the vehicle.

The Department will issue a Salvage Title for a vehicle upon application by the:

- Owner of the vehicle
- Person to whom the vehicle is titled
- Insurance company that acquires the vehicle as a salvage vehicle
- Lienholder who acquires title to the vehicle

If the Certificate of Title/Ownership is held by a lienholder, the registered owner must notify the lienholder within 10 days the vehicle has become a salvage vehicle. The lienholder must, within 30 days of receiving the notice, forward the title and the Application for Salvage Title or Non-Repairable Vehicle Certificate (Form VP-213) to the Department.

An Application for Salvage Title or Non-Repairable Vehicle Certificate and all accompanying documents will be returned to the applicant if they are not completed in full.

Salvage Title Fees:

- Licensed Nevada Automobile Wrecker  No fee
- Out-of-State Automobile Wrecker  $11.00
- Licensed Nevada Salvage Pool  $11.00
- In-State or Out-of-State Insurance Companies  $11.00
- Out-of-State Vehicle Dealers (must be registered with a Salvage Pool)  $11.00

Note: A $1.00 Technology fee is associated to all above fees.

An owner of a salvage vehicle may only sell the salvage vehicle to a salvage pool, automobile auction, rebuilder, automobile wrecker, or a new or used automobile dealer.

The Authorization for Vehicle Restoration must be obtained prior to the vehicle being rebuilt for vehicles five (5) years old or newer. The vehicle must be repaired or restored to operation, complete a VP-64 for automobiles or a VP-64M for motorcycles and have a title branded rebuilt, **before** the vehicle may be sold to a person other than the businesses listed above.
Out-Of-State Salvage Certificates/Titles

Salvage certificates issued by other states must be properly endorsed and must indicate and document a complete “chain of ownership” for the vehicle.

Contact the Department prior to accepting documents for a salvaged or junked vehicle, as laws from other states vary, and there may be instances where the Department must determine whether the documents can be accepted and whether a Salvage Title can be issued.

Some states will issue a salvage title for vehicles that have been issued a junk or non-repairable designation in another state. Nevada will not issue a salvage title for any vehicle that has or has had a status, from any state, denoting the vehicle cannot or should not be repaired for use on public highways or roads.

Retention of Salvage Vehicles

An insured party (registered owner) may elect to retain a vehicle that has been declared a total loss insurance settlement. The insurance company or authorized agent must obtain the signature of the registered owner on the Application for Salvage Title or Non-Repairable Vehicle Certificate and the current vehicle title.

The insurance company must apply for a Salvage Title, by submitting the Application for Salvage Title, current title and fees, on behalf of the person who is retaining the salvage vehicle. The vehicle may not be sold or transferred until the registered owner has received a Salvage Title.

Authorization for Vehicle Restoration

(Form VP-209)

NRS 487.480

As required by NRS 487.480, the Department will not issue a Certificate of Registration or title for vehicles that have been issued a Salvage Title (if the vehicle is five years old or newer) unless the Department has authorized the restoration of the vehicle. Form VP-209, Authorization for Vehicle Restoration, must be completed.

The authorization to restore the vehicle must be obtained prior to the vehicle being rebuilt. Only an authorized Nevada Department of Motor Vehicles Representative may complete the form.

In order to register and/or title the vehicle, the Authorization for Vehicle Restoration, Salvage Title and Certificate of Inspection/Affidavit of Vehicle Construction for Rebuilt or Specially Constructed Vehicles (VP-64 or VP-64M) must be provided. Additional documents may be required as deemed necessary.

SECTION III – COMPLETING OWNERSHIP DOCUMENTS
Dealer’s Report of Sale  
Dealer, Rebuilder, or Lessor’s Report of Sale or Lease  
NRS 482.423 - 482.424

As of July 1, 2014 all Dealer, Rebuilder or Lessor’s Report of Sale or Lease data must be transmitted electronically to the Department. This is referenced as an Electronic Dealers Report of Sale (EDRS).

When a Dealer, Rebuilder or Lessor’s Report of Sale (DRS) is required, dealers will utilize the Electronic Dealer Report of Sale Program (EDRS), a web-based system developed by the Nevada Department of Motor Vehicles Information Technology Division (MVIT), using the Motor Vehicle Industry Portal (MVIP) to transmit vehicle and owner information to the DMV. The DMV will hold the data in a temporary table for 60 calendar days from the date of sale. The dealer will not be able to query or access the DMV databases; however, limited changes to the vehicle and owner information will be possible during the 60 days the data is held in the temporary table.

Through EDRS, customers who possess a Nevada Driver License, Nevada Identification Card, Driver Authorization Card or businesses with a Federal Employer Identification Number (FEIN) may have the option to register their vehicle via the DMV Online Registration. Customers using the web may choose to receive new license plates or transfer their current, valid license plates to their new vehicle and use applicable credits.

DMV Web Connectivity

The most compatible web browser is Internet Explorer. While using other web browsers some functionality may not function. To allow EDRS PDF to display, you must enable pop-ups on your PC.

When a DRS is required

A Dealer, Rebuilder or Lessor’s Report of Sale or Lease (DRS) is the primary document used to register a vehicle sold or leased to a Nevada resident by or through a licensed Nevada dealer.

A DRS must also be issued when another dealer purchases a new or used vehicle for personal or business use that the dealership is not authorized to resell. In addition to issuing a DRS, the selling dealer must collect and remit sales tax.

A Nevada dealer may not issue a DRS to:

- Themselves.
- Other dealerships – for wholesale vehicles to be resold by that dealership.
- An out-of-state resident purchasing a vehicle in Nevada.
- An out-of-state dealership when handling a sale as a courtesy delivery.
- Buyers of off-road vehicles. These vehicle sales are handled by the Off- Highway Vehicle section of the DMV.
- For a Recreational Park Trailer. (Recreational Park vehicles are not registered with
A DRS is issued the same date that all documents necessary to complete the sale or lease of a vehicle are executed. (Ref: 482.423.7/424.7.) The date of transaction is defined as the date of sale or lease and cannot be changed.

For sales to individuals, the name of the purchaser that appears on the DRS must be the full legal name as it appears on the purchaser’s driver’s license, driver authorization card, or state-issued identification card.

A dealer must furnish a copy of the DRS to the buyer not less than ten (10) calendar days before the expiration of the temporary dealer placard (NRS 482.423 and 482.424). The temporary dealer placard is given to the buyer of a vehicle upon entering into a contract of sale for a vehicle. The temporary dealer placard is valid for thirty (30) calendar days after the date the contract of sale was signed.

The DRS must be completed in full, and all information must match the information contained on the Manufacturer’s Certificate of Origin, or outstanding title.

**Submitting a DRS**

After the vehicle is sold, the dealer must submit the required documents to the Department’s Carson City Title office to complete the transfer of ownership.

- If the vehicle is new, the documents must be submitted within 20 calendar days of the DRS transmission date.
- If the vehicle is used, the documents must be submitted within 30 calendar days of the DRS transmission date.
- If a correction was made to the DRS, include a copy of the updated DRS with an original signature.
- The DRS must be properly completed. Incomplete or incorrect information will result in the return of documents and delays for all parties involved.
- Information on the DRS must match the information on the Manufacturer’s Certificate of Origin or the applicable Certificate of Title.
- Title fees must be submitted with the DRS.

**DRS Copy Distribution**

The DRS consists of three (3) copies distributed as follows:

- One signed copy must be attached to all original, required title documents and forwarded to the Title Section in Carson City. If an update was made to the DRS, include a copy of the updated DRS with an original signature.

  Department of Motor Vehicles  
  Attn: Titles  
  555 Wright Way
Carson City, NV  89711

- One signed copy is given to the purchaser and is used to register the vehicle. The vehicle must be registered before the expiration date on the Temporary Dealer Placard. Late fees will be assessed if the vehicle is not registered within the thirty (30) calendar day period. If an update was made to the DRS, include a copy of the updated DRS with an original signature.

- Customers must submit their insurance information at the time they are registering their vehicle. Nevada law requires registered owners to maintain insurance coverage on registered vehicles from an insurance company licensed with the Department of Insurance in the State of Nevada to avoid a minimum $250 fine.

- The dealer’s copy is the dealer’s record of sale and must be retained for 7 years from the date of transaction or 3 years after the dealership has gone out of business. If a correction was made to the DRS, include a copy of the updated DRS with an original signature.

**DRS Extensions**

Submittals for an extension of time on a DRS may be requested by the dealer (refer to Section X of this guide for additional information).

**Instructions for Completing the Dealer or Rebuilder Or Lessor’s Report of Sale**

Please reference the EDRS manual located at the link below for instructions to complete, update and print a DRS.

DMV Business Portal Manual  
DMV EDRS Manual

**Lease Buyout**

Lease Buyout means a person or business leasing a vehicle that terminates the lease by purchasing the vehicle. This constitutes a sale and is processed as a new transaction.

A Dealer’s Report of Sale (DRS) must be completed when a lease is terminated as a result of purchase of a vehicle. If the owner information remains the same as it was during the lease period, the dealer shall:

- Attach the completed and properly released Certificate of Title and the $29.25 title fee, which includes a Technology fee.
- Submit two copies of the DRS and the supporting documentation to the Department,
- Mark the appropriate box to indicate sales tax was collected. Nevada dealers are required to collect sales tax on all retail sales in Nevada, including lease terminations and lease buy-outs.
• Include $5 for the new certificate of registration.

The Department’s Carson City office will issue a new registration for the vehicle removing the lease information, and mail it to the registered owner.

If there are changes in the registered owner information, but there is not a complete transfer of ownership or lease, the dealer shall:

• Print “Lease Termination—Correction” across the top of the DRS; and
• Give a signed copy of the DRS that shows the modified information to the customer.
• Mark the appropriate box to indicate sales tax was collected. Nevada dealers are required to collect sales tax on all retail sales in Nevada, including lease terminations and lease buy-outs.

The customer retains the original set of license plates.

In all cases, the $21 title and Technology fee and $8.25 title-processing fee must be submitted with the title documents when they are sent to the Department’s Carson City office.

Note: Please see Section II for Odometer Disclosure Information pertaining to leased vehicles.

Lien Release / Satisfaction of Lien

Lien Release means a written release from a person, business or financial institution on record as having a security interest in a vehicle. The lien release must include a complete vehicle description.

An electronic lien title must be released by the lienholder electronically. The electronic lien release will create a new title without the lien listed (clear title). The title will be mailed to the party requested by the lienholder.

A lien release or satisfaction of lien enables a lienholder to release the security interest in a vehicle. It may be used with the Certificate of Title or with an application for a duplicate Certificate of Title for a printed title.

The lien release must include:

1. A complete description of the vehicle, including the vehicle identification number, year, make, and model.
2. The registered owner’s full legal name.
3. The registered owner’s address.
4. The printed name of the lienholder.
5. The address of the lienholder.
6. The phone number of the lienholder.
7. The printed name of the lienholder representative.
8. The lienholder representative’s title if the lienholder is a business.
9. The signature of an authorized representative.
10. A Lien release must be signed in the presence of a Notary Public or authorized Nevada Department of Motor Vehicles representative. If witnessed by a Notary Public, the stamp and signature of the notary public must appear on the affidavit. If witnessed by an authorized Department representative, the name and validation stamp or employee identification number, as applicable, must appear on the affidavit.

Note: A Lien Release (Form VP-186) is available from the Department. However, other forms will be accepted provided they contain the information specified above.
LIEN RELEASE

This lien release can only be used to release a lien on a printed title. If the title is an electronic record the lienholder must release their lien electronically. After electronic receipt of lien release the DMV will create a new title without the lienholder listed and mail the clear title to the registered owner.

Repossession Affidavit
(Form VP-20)

A lienholder, as recorded on a Certificate of Title, may take possession of a vehicle that is in default of the terms of the applicable security agreement. To take such possession, the lienholder must submit the documents and follow the procedures required by Nevada Revised Statutes 482.516 through 482.518.

Any person repossessing a vehicle without the knowledge of the registered owner must report the repossession orally to the police or sheriff’s office in the county where the repossession is made.

A lienholder must give written notice to the person named as liable on the security agreement of the intent to sell a repossessed vehicle. The written notice must be provided at least 10 days prior to the sale, and must be provided in person or sent by mail to the address as shown on the security agreement. The notice must:

- Inform the person of their right to redeem the vehicle and the total amount required to do so as of the date of the notice.
- Inform the person of their privilege of reinstatement of the security agreement, if the lienholder extends such a privilege.
- Give notice of the lienholder’s intent to resell the vehicle at the expiration of 10 days from the date of the notice.
- Disclose the location where the vehicle will be returned to the buyer upon redemption or reinstatement.
- Designate the name and address of the person to whom payment must be made.

During the period provided under the notice, the person liable on the security agreement may pay the debt in full.

The lienholder must sell the vehicle in a commercially reasonable manner. The proceeds of the sale must be applied in the following order:

- To cover the reasonable expenses of retaking, holding, preparing for sale, selling,
and to the extent provided for in the security agreement, reasonable attorney’s fees and legal expenses incurred by the secured party.

- To satisfy the indebtedness secured by the security interest under which the disposition is made.

- To satisfy the indebtedness secured by any subordinate security interest in the collateral if written notification of demand is received before distribution of the proceeds is completed. If requested by the secured party, the holder of a subordinate security interest must furnish reasonable proof of his interest, and unless he does so, the secured party need not comply with his demand.

- The payment of any surplus to the debtor.

To obtain the Certificate of Title in the lienholder’s name for a vehicle that has been repossessed, attach the Repossession Affidavit (Form VP-20) to the outstanding title. The title must be released by the lienholder as shown on the face of the title.

If a vehicle has been resold, usual procedures for transfer of ownership must be followed. The Repossession Affidavit must be submitted with the transfer of ownership documents.

Power of Attorney
(Form VP-136)

A Power of Attorney is a written legal document whereby one individual conveys to another the legal right to act on his or her behalf.

If the right to release interest in a vehicle has been conveyed to another person or firm by Power of Attorney, the original Power of Attorney must accompany the title documents, and it must contain a complete description of the vehicle, including the vehicle identification number, year, make and model.

If a general Power of Attorney is used to convey an individual's legal rights, a photocopy attached to the title documents is acceptable.

A Power of Attorney becomes null and void upon the death of the individual who conveyed his or her rights to another.

The Power of Attorney must be exercised by the person or firm named as representative on the form. To properly exercise the Power of Attorney, the name of the owner must be listed prior to that of the representative.

- Example for an individual:
  Sharon Smith by Jane Doe, P of A

- Example for a business:
  Sharon Smith by Morrison’s Garage George Morrison, P of A

The Power of Attorney must be exercised on the Certificate of Title or document for which the authority was granted. Otherwise, it is null and void.

The Power of Attorney must be signed in the presence of a Notary Public or authorized Nevada Department of Motor Vehicles representative. If witnessed by a Notary Public, the stamp and signature of the notary public must appear on the affidavit. If witnessed by an authorized Department representative, the name and validation stamp or employee identification number, as applicable, must appear on the affidavit. A licensed Nevada dealer’s signature is not required to be acknowledged by a Notary Public on documents the dealer must file with the Department, except in regard to deposit in lieu of bond. (NRS 482.3275)

When the Power of Attorney is used to release ownership of a vehicle, the Certificate of Title must be signed in the appropriate area by the individual appointed as Power of Attorney.

If a specific power of attorney is used to release ownership of a vehicle, a copy is acceptable only if it is a certified copy. The following statement must be included on the copy:

“I hereby certify that this is a true and exact copy of the original that is being held in our files. I further certify the original will be available during normal business hours for review by Department of Motor Vehicles personnel if necessary.”
If a power of attorney is given to a business, the certification statement must include the business stamp or the printed or typed name of the business, the signature of the individual authorized to act on behalf of the business and the printed or typed name of the person certifying the copy of the specific power of attorney.

A general or specific power of attorney cannot be used to disclose the odometer reading on vehicles nine years old or newer.

**Transfer on Death**  
(Form VP-239)

Transfer on Death allows vehicle owners to add or remove a beneficiary to their title. A title fee, the title, and the application must be submitted to the Department Motor Vehicles to make this change. A new Nevada title will be issued with the beneficiary’s name and the “Transfer on Death” designation.

A beneficiary cannot be added to the title when there is a lienholder or ownership is designated as “Tenants in Common.” The beneficiary does not have interest or control of the vehicle. If a lienholder is added to the title later, the beneficiary will be removed from the title.

To transfer the ownership to the beneficiary, the beneficiary must submit the title (if available), title fee, and certified death certificate of the vehicle’s legal owner(s). If more than one owner is on the title, the beneficiary cannot become the vehicle owner until all owners are deceased.
SECTION IV – US MILITARY REGISTRATION AND TITLES
FOREIGN, CANADIAN AND GRAY MARKET VEHICLES
U.S. MILITARY REGISTRATION AND TITLES
FOREIGN AND GRAY MARKET VEHICLES
Foreign and Gray Market Vehicles

A foreign or gray market vehicle is a vehicle manufactured for sale in a country other than the United States that may not meet U.S. safety and/or environmental standards. These vehicles are not imported to the United States through the manufacturer’s U.S. distribution system. Once in the United States, these vehicles must be brought into compliance, exported back out, or destroyed.

- All of the following documents are required to register and title a gray market vehicle:
  - The foreign Manufacturer’s Certificate of Origin, Manufacturer’s Statement of Origin or outstanding Certificate of Title:
  - A statement signed by the manufacturer indicating an MSO/MCO was never issued; or
  - A statement from the manufacturer indicating to whom they assigned their interest in the vehicle; and
  - Bills of sale to establish a complete chain of ownership
- A completed Vehicle Inspection Certificate (Form VP-15)
- U.S. Department of Transportation Form HS-7
- U.S. Environmental Protection Agency Form 3520-1
- Odometer Disclosure Statement for vehicles 9 years old or newer if not on the MSO/MCO or title
- Statement of Facts (Form VP-22) if there is no Manufacturer’s Certificate/Statement of Origin or outstanding Certificate of Title

The Nevada Certificate of Title will be branded “Non-US Vehicle” to provide notice to future owners that the vehicle was a foreign or gray market vehicle.

For more information, you may reference the National Automobile Dealers Association (N.A.D.A.) Title and Registration Text Book, PO Box 7800, Costa Mesa, CA 92628, phone number 800-966-6232.

Vehicles that are sold in the United States and designated for importation out of the United States cannot be titled in Nevada.

Miles versus Kilometers

To accurately reflect the true reading of the odometer apparatus, the documents (title, reassignment, etc.) should indicate whether the odometer records the distance traveled in miles or kilometers.

When the title is processed, the kilometers will be converted to miles. The kilometers are multiplied by 0.6214 then rounded to the nearest whole number; the result is used as the miles.
Canadian Vehicles

Vehicles not previously determined eligible for importation must go through a petition process that takes between 90 and 120 days.
    - Non-Conforming Vehicle with a bond release letter
      DOT form HS-7, Declaration of Conformity.
      CBP form 7501 Entry Summary.

U.S. Military Registrations and Titles

Military registrations DO NOT require shipping papers or DOT or EPA releases, unless the vehicles are gray market vehicles. All of the following documents are required to register and title a vehicle.

AE Form 190-1AA is currently used by the military to register vehicles.

Vehicle Inspection Certificate (Form VP-15).

Notarized lien release if the lien has been satisfied or lienholder information when there is a lienholder.

Statement of Facts (VP-22) Military registration is not proof of ownership.

Transfer of ownership may be completed on the reverse side of the form or by an acceptable bill of sale. Odometer Disclosure Statement for vehicles 9 years old or newer if not on the title.

Military Nevada Resident Vehicle Registration

Nevada residents on active duty in the U.S. Armed Forces may maintain a Nevada vehicle registration while stationed in other states. However, you are not entitled to tax relief under the Service Member's Civil Relief Act of 2003. You may be entitled to a Veterans Exemption. Contact your Nevada County Assessor.
If your registration renewal requires an emission inspection and you cannot have it completed in Nevada, you must have a smog check completed if you are currently residing in an area that requires emission inspections or submit an affidavit if testing is not required in your location. You may wish to consider renewing early when you are in Nevada.

The DMV will waive registration late fees for active duty military members assigned to combat or combat support positions. Use the Active Duty Military Combat Affidavit (VP 258) when you renew your registration. This form must be submitted at the time of renewal. You may renew by mail if the form is notarized or you may sign it and renew in person at a DMV office.

If you wish to obtain an original registration or transfer an existing Nevada registration and plates to another vehicle, please email the Vehicle Identification Number and other specifics such as where and how the vehicle was purchased, sales price and any sales taxes paid. We will return an estimate of fees and instructions on how to complete the registration.
General Registration Information

Registration requirements include Nevada liability insurance, a passing emission control certificate when the vehicle is registered in Clark and Washoe Counties, odometer disclosure statements when applicable and payment of sales tax or proof that sales tax in Nevada has been paid.

Nevada law requires registered owners to maintain continuous Nevada liability insurance coverage on registered vehicles, from a licensed Nevada insurance carrier to avoid reinstatement fees and fines. Mopeds are exempt from insurance requirements.

Note: An insurance company must be licensed through the State of Nevada, Department of Insurance and approved by the Department of Motor Vehicles to sell vehicle insurance policies in Nevada.

- Minimum liability insurance amount is:
  - $25,000 for bodily injury to or death of one person in any one accident;
  - Subject to the limit for one person, in the amount of $50,000 for bodily injury to or death of two or more persons in any one accident; and
  - $20,000 for injury to or destruction of property of others in any one accident.

Vehicle Registration Fees

Nevada Revised Statutes 482.205 requires that every owner of a vehicle intended to be operated on any Nevada highway apply to the Department or a registered dealer to obtain a valid registration before the vehicle can be operated on Nevada highways. Nevada requires all vehicles to be registered for 12 consecutive months (NRS 482.206).

Exceptions:

- Recreational and utility trailers may be registered for three years at a time.
- The Motor Carrier Division offers a permanent registration and license plate for full and semi-trailers.

The Motor Carrier Division may prorate new vehicle registrations only for 100% Nevada based vehicles for the balance of the year (if the carrier can prove they did not run prior to registering).

Owners of fleet vehicles (10 or more vehicles) may be registered on a calendar year basis, with the registrations expiring on December 31.

- 26,001 to 80,000 lbs. (per thousand pounds or portion thereof): $17.00

Note: A $1.00 Technology fee has been associated to each fee above.
Governmental Services Taxes

Governmental Services Taxes, as required by NRS 371.050, are also due and payable at the time of a vehicle registration. These taxes are based on 35 percent of the Manufacturer’s Suggested Retail Price (MSRP) of the vehicle, excluding options and extras, when the vehicle was first offered for sale.

Buses, trucks, truck tractors or vehicle combinations having a declared gross weight of 10,000 pounds or more, and trailers and semi-trailers having an unladen weight of 4,000 pounds or more, may be assessed at 85 percent of the original purchase price, in lieu of the MSRP.

The original value of the vehicle may be based on $.50 per pound, if the Department is unable to determine the original MSRP in Nevada, or the original retail price.

Governmental Services Taxes are based on $.04 for each $1.00 of valuation of the vehicle as determined by the Department (NRS 371.040). Vehicles are depreciated for the purpose of the governmental services taxes annually until the vehicle is nine years old. Buses, trucks or truck tractors having a declared gross weight of 10,000 pounds or more and each trailer or semi-trailer having an unladen weight of 4,000 pounds or more are depreciated by the Department annually until they are 10 years old (NRS 371.060).

Governmental Services Taxes are rounded to the nearest dollar.

Note: In Motor Carrier Division, vehicles with a GVW of 26,001 pounds or more are assessed GST and SGST based on the Original Purchase Cost (OPC) chart established by the Division.

Supplemental Governmental Services Taxes

NRS 371.045 authorizes boards of county commissioners to impose additional governmental services taxes of not more than $.01 per $1.00 of valuation of the vehicle.

Supplemental Governmental Services Taxes are rounded to the nearest dollar and will be calculated at the time of registration as applicable to the county in which the vehicle is based.

License Plate Production Fee

As required by NRS 482.268, the Department also collects a License Plate Production Fee. The fee amount is set by regulation in NAC 482.295.

Prison Industry Fee

As required by NRS 482.268, the Department also collects a Prison Industry Fee of $.50 per license plate.
Technology Fee

As required by NRS 481, the Department will collect a $1.00 Technology fee associated to each transaction. This is due to SB 502 and due to sunset in 2020.

Military Nevada Resident Vehicle Registration

Nevada residents on active duty in the U.S. Armed Forces may maintain a Nevada vehicle registration while stationed in other states. However, you are not entitled to tax relief under the Service Member's Civil Relief Act of 2003. You may be entitled to a Veterans Exemption. Contact your Nevada County Assessor.

If your registration renewal requires an emission inspection and you cannot have it completed in Nevada, you must have a smog check completed if you are currently residing in an area that requires emission inspections or submit an affidavit if testing is not required in your location. You may wish to consider renewing early when you are in Nevada.

The DMV will waive registration late fees for active duty military members assigned to combat or combat support positions. Use the Active Duty Military Combat Affidavit (VP 258) when you renew your registration. This form must be submitted at the time of renewal. You may renew by mail if the form is notarized or you may sign it and renew in person at a DMV office.

If you wish to obtain an original registration or transfer an existing Nevada registration and plates to another vehicle, please email the Vehicle Identification Number and other specifics such as where and how the vehicle was purchased, sales price and any sales taxes paid. We will return an estimate of fees and instructions on how to complete the registration.

When a vehicle is sold to an out-of-state resident, the MCO or Certificate of Title may be given to the customer. If there is a security interest in the vehicle, the documents must be sent directly to the lienholder. The customer may be provided with photocopies of the documents.

The provisions of Nevada Administrative Code 372.708 must be followed if the sale is exempt from sales tax. The purchaser must be furnished with an affidavit in a format prescribed by the Nevada Department of Taxation.

SECTION IX – EMISSION CONTROL
Nevada Motor Vehicle Emission Control Program

Summary

A decentralized, test-and-repair, basic I/M (Inspection and Maintenance) program is operating in Reno (Washoe County). A decentralized, test-and-repair, low enhanced I/M program is operating in Las Vegas (Clark County).

Model year 1968 and newer vehicles that are over two years old are inspected. All gasoline-powered vehicles (light and heavy duty), and all diesel powered vehicles with a Manufacturer’s Gross Vehicle Weight Rating of 10,000 pounds or less that meet this model year criteria are inspected for emissions annually. Vehicle owners that are registering or re-registering their vehicle are required to have their vehicle emission inspected as part of the process (program is registration enforced). The DMV registration database obtains the emission information for vehicles that are involved in the registration process from the vehicle information database (VID). Only gasoline emission analyzers are networked to a vehicle information database (VID) for emissions at this time.

Hybrid Vehicles (Gasoline/Electric), effective October 1, 2007 are exempt from emission testing:
- Based on the model year of the vehicle.
- Exempt for five model years. Emission testing will resume in the 6th year.

Note: If vehicle is a 2007 and purchased new in 2008 there is no extension allowed. Emission will be required in the sixth model year, upon renewal in 2013.

Waiver Requirements
For Gasoline Powered Vehicles

Clark County:

- $450.00 in repairs related to exhaust gas failures only. A waiver will not be granted for an emission failure due to tampering of emission devices, visible smoke or blowby. Repairs must be completed at an Authorized Station licensed to perform emission related repairs (designated a 2G station) to be eligible for an emission waiver.
- Self-repair provisions are not authorized in Clark County.

Washoe County:

- Self-Repair: $200.00 spent on parts related to the exhaust gas failure, other than a catalytic converter, fuel inlet restrictor or air injection system. No waiver for an emission failure due to tampering of emission devices, visible smoke or blowby.
- Shop Repair: $200.00 related to exhaust gas failures only. No waiver will be granted for an emission failure due to tampering of emission devices, visible smoke or blowby. Repairs must be completed at an Authorized Station licensed to perform emission related repairs. Facilities also noted as 2G.
- In addition to the requirements mentioned, the customer must have the following items present when applying for a waiver:
  1. First failed emissions test before repairs were performed on the vehicle.
  2. Receipts for parts and labor repairs dated after the first failed test.
  3. Second failed emission test after repairs were performed.
  4. Vehicle must be present for inspection to verify repairs were performed.

  Note: Vehicles Inspection Reports are valid for 90 days from the date of the test.

Diesel Vehicles Requiring and Emission Inspection

The following Diesel Vehicles are required to have an emission inspection:

- All passenger vehicles regardless of Manufacturer’s Gross Vehicle Weight Rating
- All light Duty Motor Vehicles
- All heavy-duty motor vehicles having a manufacturer’s gross vehicle weight rating not exceeding 10,000 pounds

Note that the emission inspection requirement is irrelevant to the weight that the registered owner declares, and only the Manufacturer’s Gross Vehicle Weight Rating is
the determining factor. These vehicles are tested for opacity (density of smoke existing in the exhaust). Pursuant to NAC 445B.589, all emission control devices that are listed on manufacturer’s emission control label for 1981 and newer vehicles are visually inspected. All vehicles that require testing are inspected for a proper fuel cap on all fuel tanks and are required to be in compliance preceding registration or renewal. The diesel vehicles are tested under a load on a dynamometer. The maximum allowable opacity reading in Washoe County is 40% and in Clark County, the maximum is 30%.

**Diesel Vehicles Not Requiring an Emission Inspection**

The following Diesel Vehicles are not required to have an emission inspection for registration: Heavy Duty motor vehicles with a Manufacturer’s Gross Vehicle Weight Rating of 10,001 pounds or more and, vehicles that carry more than 15 passengers with a Manufacturer’s Gross Vehicle Weight Rating of 10,001 lbs. or more. These vehicles are tested at random at roadside inspection stations and are not required to have an emission test for registration purposes. Passenger vehicles powered by diesel are not included in this category with the exception of full time all-wheel drive vehicles such as Hummers. These types of vehicles can receive an emission exemption from the Departments Emission Control Lab’s.

**Smoke Hotline**

Nevada has a Smoking Vehicle Hotline (686-SMOG in Reno, and 642-SMOG in Las Vegas) so that anyone may report a vehicle that is emitting excessive smoke from its exhaust. The information is collected and researched by the Compliance Enforcement Division of the Department of Motor Vehicles. The registered owner is sent a letter notifying them that their vehicle was reported as a smoking vehicle. The letter requests they repair the vehicle if it in fact emits visible smoke.

If a representative of the Department or a Law Enforcement Officer witnesses a vehicle smoking, a Smoking Vehicle Observation Report form is completed. The Department will then require a response from the registered owner of the smoking vehicle.

For more information on the Smoking Vehicle Program, call 1-877-368-7828 or the web at [www.dmvnv.com/emission.htm](http://www.dmvnv.com/emission.htm).

**Vehicles for Sale**

It is unlawful for any person (individual or business) to sell, offer for sale, display, operate or leave standing any vehicle that is required by state or federal law to be equipped with pollution devices unless those devices are correctly installed and in operating order.
Dealer Sales

Any dealer who sells a used vehicle that will be registered in a Nevada Emission Control Program area must provide a certificate of compliance at the time the Dealer’s Report of Sale is issued.

Licensee Overview

Facilities that perform emission inspections are licensed as either an Authorized Inspection Station (1G) or Authorized Station (2G). Authorized Inspection Stations (1G) can test vehicles for emissions but cannot perform emission related repairs. Authorized Stations (2G) can test vehicle for emissions and perform emission related repairs.

Individuals licensed to only perform emission inspections are classified as 1G. Individuals licensed to perform emission inspections and emission related repairs are classified as 2G. There are different levels of training and testing requirements for each level of inspector classifications.

Fee Schedules

Fees for inspections are calculated based upon 35 percent of the average shop labor rate, evaluated within each county during the final quarter of each year. A six-dollar vehicle inspection report fee is charged for each inspection throughout the State of Nevada. Maximum fees for each calendar year are calculated during the last quarter of the calendar year and are based on the annual shop labor rate survey conducted by the Department.

SECTION X – OCCUPATIONAL AND BUSINESS LICENSING
Vehicle Industry Licensing
Vehicle Industry Licensing and Regulation

The legislature finds and declares the distribution and sale of motor vehicles in the State of Nevada vitally affects the general economy of the state, the public interest and the public welfare. In the exercise of legislative police power, it is necessary to regulate and license motor vehicle manufacturers, distributors, new and used vehicle dealers, rebuilders, leasing companies, brokers, transporters, salespersons and their representatives doing business in the State of Nevada in order to prevent frauds, impositions and other abuses upon its citizens.

The Department of Motor Vehicles (Department) has been charged with the responsibility of regulating the vehicle industry to ensure the legislative declaration and intent is met.

It is incumbent upon each licensee to know the laws governing the vehicle industry and the business for which the licensee is licensed. This information is intended to assist you in that effort.

Being Contacted by the Department
And Availability for Inspection of Books and Records

As a public agency, the Department serves you and many other customers. The Department may receive complaints against a licensee from the public. The Department’s Compliance Enforcement Division will investigate these complaints in order to protect the public interest and prevent unfair practices.

The law provides for inspection by the Department, of your Dealers Report of Sale (VP240), pertinent records, and vehicle inventory. As a condition of licensing, licensees are required to make their books and records available for inspection during normal business hours. Licensees are required to produce items for inspection within three (3) business days of receiving a request from the Department, at the location specified. While records examination is required, we will make every effort to minimize any detrimental impact to the business.

Business Information

Business License

The business license is issued to an individual, partnership, LLP, LLC or corporation after receipt of an application and investigation of the applicant(s) by the Department. The license is valid only for the business and owner(s) for which it was issued. The licensed business may not allow any person, who is not a licensed principal or salesperson of the business, to operate under the authority of the license. The licensee may not lease the license to another business or person. The license is not an asset of the business and is not transferred to new owners should the business be sold.

If a licensee changes the name or location of the established place of business, he cannot conduct business under the new name or at the new location, until he has been issued a license for the new name or location, from the Department. Forms and instructions for change may be obtained at any Occupational and Business Licensing office, or on the DMV web site, www.dmvnv.com

In lieu of a surety bond, the applicant may deposit with the Department an equivalent amount of money in United States currency, federal or Nevada state bonds with an actual market value of not less than the amount required by the Department, or a time certificate of deposit from a bank or savings and loan association located in Nevada.

If an applicant or licensee wishes to use a time certificate in lieu of surety bond, the certificate must state the “business name” the word “or” and “Department of Motor Vehicles.”

Example: Rhonda's Roadsters or Department of Motor Vehicles

A letter must accompany the certificate from the originating bank stating that the funds are unavailable for release without written authorization from the Department.

Insurance Requirements for Business Licensing

Dealers, rebuilders, manufacturers, and distributors must furnish and keep in force automobile liability insurance as a requirement of licensing. (NRS 482.325) The current insurance requirements for business licensing can be found at:

Business Licensing Insurance Requirements (form OBL 273)

Evidence of self-insurance with the State of Nevada is acceptable for the operation of a short-term lessor. Self-insurance covers vehicles registered in the name of the business. It does not cover vehicles held for sale, or vehicles with dealer or loan license plates.

If a vehicle dealer wishes to add short-term leasing, or a short-term lessor wishes to add vehicle sales to an existing business, a new certificate of insurance stating coverage for the additional activity must be submitted to the Department as part of the license application.

2. Any solicitation or sale is prohibited;
3. A salesperson or representative of the licensed dealer is not present; and

A maximum of six temporary location licenses to display for sale may be obtained within a calendar year.

An application for temporary license to exhibit vehicles or to display vehicles for sale must be submitted on a form supplied by the Department, at least three days prior to the date of the sale or exhibit.

Temporary DMV Business License Sample
Licensing of an Additional Location

An additional location of a dealership is considered a separate and new business and must meet all requirements of a new business, with the following exceptions:

- If the principals on the application for an additional location have submitted fingerprints, it is not necessary to submit additional fingerprints with the application for the second location.

- The bond covering the dealer's principal place of business will cover the additional location if located in the same county and operated under the same business name. A rider from the bonding company, acknowledging coverage for the additional location is acceptable. For any business located in a different county and/or operated under a different business name, a separate bond will be required.

- If the additional location has the same business name as the principal location, it is not necessary to submit an additional insurance certificate; an amendment to the policy acknowledging coverage for the second location is acceptable.

Application for business license for an additional location is processed in the same manner as an original application. Processing time is two to three weeks. Upon approval, a business license number will be issued. Supplies are issued by business license number and cannot be transferred between locations.

The business license and salesperson license are displayed at the licensee’s physical location as listed on the license. Books and records must be made available for inspection by the Department during normal business hours.

Change of Business Principal Information

Documentation for change of business information may be submitted at any Occupational and Business Licensing office.

Adding a Business Principal

To add a principal to an existing business, an updated business license application must be submitted, signed by a current principal of the business, checking the change of business principal box and listing all principal's full legal names in the ownership section.

A Personal History Questionnaire (form OBL 242) completed with one set of fingerprints, Civil Applicant Waiver, and fingerprint processing fee, must be submitted for the new business principal with the business license application.

Updated Personal History Questionnaire (form OBL 242) must be completed by existing principal(s).

Licensee / Registrant Acknowledgement (form OBL 308).

If the business is either an individual or a partnership, a rider to the bond must be submitted adding the new principal's full legal name.
If the business is LLP, LLC or corporation, new corporate documents reflecting the change of business principals or corporate officers are required.

The Department will conduct a background investigation on the applicant being added to the business and upon determination of eligibility for licensing, update the records of the Department to reflect the new information.

**Removing a Business Principal**

To remove a principal from the business license, an updated business license application reflecting the change of business principal information must be submitted to the Department along with a letter from the principal being removed stating that the principal is resigning from the business or relinquishing interest in the business and wishes to be removed.

An Updated Personal History Questionnaire (form OBL 242) must be completed by existing principal(s).

If the business is a LLC or corporation, new corporate documents and corporate filing reflecting the change of officers must be submitted.

If the business is a partnership, a rider to the bond must be submitted reflecting the removal of the principal.

In the event of the death of a principal, documentation of the death and a request to remove the person from the license is acceptable.

If a business is individually owned and the principal dies, the Department must be notified. Business operations must cease and the Department will change the business record to “Out-of-Business” status. A surviving spouse or surviving child may not continue to operate a business if not listed on the original license.

**Change of Business Address**

When a licensee changes the location and/or name of any of the established places of business, he cannot conduct business under the new name, or at the new location, until he has been issued a license for the new name and/or location from the Department NRS 482.326.4

Documentation for change of address may be submitted to any Occupational and Business Licensing office.

**Change of Physical Address**

When a licensee changes the physical address of the business, an updated business application form must be submitted to the Department documenting the new address information.

An Updated Personal History Questionnaire (form OBL 242) must be completed by
existing principal(s.)
New city or county business licenses, rider to the bond, certificate of insurance and photo of the new location reflecting the new address must accompany the updated application form.

If the new location of the business is in a county different from that of the previous location, a new bond or rider to the current bond reflecting the change of county of residence must also be submitted.

Dealers must also submit a Dealer Franchise Certification (form OBL 253) noting the change, if applicable.

Upon approval, the Department will issue a revised business license, salespersons licenses and registration certificates for any business license plates registered in the name of the business. All licenses will be issued for the remaining portion of the calendar year.

**Change of Mailing Address**
When a licensee changes only the mailing address of the business, an updated business application reflecting the change of mailing address or a letter documenting the new mailing address with this information must be submitted to the Department. No other documentation is needed to change the mailing address only.

**Renewal of Business License**
All business licenses for vehicle dealers, rebuilders, manufacturers, distributors, brokers, salespersons licenses and registration for business license plates expire December 31 of each year. Licenses and registrations issued throughout the year expire on December 31 and pay the same fee; there is no prorating of fees. Licenses issued on or after November 1, are valid through the following year.

Renewals may be processed on the web at [www.dmvnv.com](http://www.dmvnv.com), by mail or in person. The Occupational and Business Licensing Section of the Compliance Enforcement Division processes all renewals. Licensees are urged to submit the renewal forms and fees early to allow for processing time.

Licenses that are renewed after the expiration date are subject to a $25.00 late fee.

A business principal listed on the renewal form must sign the renewal application. The renewal application will be returned if it is not signed by a business principal. A completed Child Support form, (OBL 268), must accompany the renewal application for each principal. If the form is missing for any of the principals, the renewal application and fees will be rejected and returned to the business.

If the Department does not receive the renewal application prior to close of business on December 31, all activity must cease until the license is renewed. Failure to cease business operations until the licensee is renewed may result in administrative fines and/or revocation of the license. If the principal wishes, he may designate an office
manager or resident agent, who will have authorization to sign the renewal and any other paperwork on behalf of the business. This authorization must be submitted to an Occupational and Business Licensing office in writing on the “Letter of Authorization” (form OBL 276), and signed by a business principal. This person must submit a completed Personal History Questionnaire (form OBL 242).

Any change made to the business license requires the submission of documentation with the renewal form. See “Change of Business Information” section or contact your local Occupational and Business Licensing office for instructions and/or forms.

Salesperson licenses may be renewed at the time of renewal of the dealer business license. If a licensee does not wish to renew a salesperson’s license, follow the instructions on the renewal notice. A completed Child Support form, (OBL 268), must accompany the renewal application for each salesperson being renewed. If the form is missing for any of the salespersons, the renewal application and fees will be returned to the business.

Business license plates are renewed at the time of renewal of the business license on the renewal form. If a licensee does not wish to renew a license plate, follow the instructions on the renewal form and return the license plate(s) to the Department. Note on the renewal form if a business license plate is lost or stolen.

The number of dealer license plates that may be issued to a dealer or rebuilder is a number that is limited to the total number of active principals and salespersons licensed to the business, multiplied by 1.5.

Example: Total of ten principals and salespersons

\[ 10 \times 1.5 \text{ plates} = 15 \text{ dealer license plates} \]

Manufacturers and distributors may obtain business plates. These are limited to a number that does not exceed the number of principals or officers listed on the license.

Enforcement action will be taken against anyone in possession of a Nevada business license plate or registration certificate that has been reported as lost or stolen. If a license plate, which you have reported lost or stolen is found or turned into your business, the license plate and registration must be returned to the Department. The license plates cannot be reactivated.

**Business License Plates**

The Department is authorized to issue special license plates to business licensees. The fee for a business license plate is $13.00, which includes a Technology fee plus a $3.00 per plate production fee and a $.50 per plate prison industry fee. The business license plate may be renewed for a fee of $13.00.

Business license plates expire on December 31 of the year of issuance. Fees are not prorated.

A Registration Certificate is issued for each license plate and contains the name, address and license number of the business. The registration certificate is issued to the
license plate and not for a specific vehicle. This allows a license plate to be moved from one vehicle to another under the control of the business.

License Plate Display

License plates must be securely attached to the vehicle. License plates may not be displayed loosely in the window or by any other unsecured method.

Business License Plates Usage

A vehicle displaying manufacturer, distributor or dealer license plates may be operated for personal use by a corporate officer, head of a department or salesperson of the business who is licensed by the Department.

Additionally, a business license plate may be used by a business representative to carry out normal business activities. This would include display, demonstration, maintenance, sale, or exchange of a vehicle, driving the vehicle to a temporary off-site sale, etc.

Pursuant to NAC 482.048, a manufacturer, distributor, dealer or rebuilder shall not authorize use of a business license plate on:

- Vessels driven by a member of the family of the principal owner, officer, head of a department or salesperson of the business, if the family member is not licensed as a manufacturer, distributor, dealer, rebuilder or salesperson.
- A vehicle that does not constitute inventory held for sale by the manufacturer, distributor, dealer or rebuilder.
- A vehicle that is owned and has been leased or rented to any person.
- A vehicle operated in the furtherance of the business, i.e., work or service vehicles owned by the manufacturer, distributor, dealer, or rebuilder.
- Vessels that have been sold.

Pursuant to NRS 482.320.2, dealer license plates may not be used on:

- Work or service vehicles owned or controlled by the dealer/rebuilder.

- Vessels that are privately owned by the owners, officers or employees of the dealer/rebuilder.
- Vessels that are being used for personal reasons by a person who is not licensed by the Department or identified as an officer, department head or salesperson for the dealer/rebuilder.
- Vessels that have been given or assigned to persons who work for the dealer/rebuilder.
• Vehicles purchased by a manufacturer, distributor, dealer, or rebuilder for personal use, which the licensee is not licensed or authorized to resell.

**Nevada Loan License Plates**

Loan license plates may be obtained by a Nevada licensed dealer or rebuilder and may be used on vehicles that constitute inventory held for sale and are loaned to a customer in the course of business. The customer may use the vehicle for any purpose. NAC 482.043

The dealer or rebuilder may use a loan license plate on a vehicle loaned to:

• A customer, in the course of business.
• An officer or employee of the State of Nevada in the furtherance of the business of this state.
• An officer or employee of the University or Community College System of Nevada for any purpose authorized by the system.
• An officer or employee of a school district, for the furtherance of the school district business.
• An officer or employee of a county, city or town for the furtherance of county, city or town business.
• An officer, employee or agent of an organization that is tax exempt pursuant to the provision of section 501(c)(3) of the Internal Revenue Code, for the furtherance of the business of the organization.

• A dealer may use no more than six of the loan plates for personal use by the dealer or member of his immediate family.

A customer may not use a loan license plate for more than 10 days in a calendar year. A dealer or rebuilder may not accept any fee, compensation or other form of direct profit from the loan of a vehicle displaying a loan license plate. NAC 482.0435

The dealer or rebuilder must maintain a written record of each vehicle that is loaned to a customer in the course of business and on which a loan license plate is displayed. The written record must be maintained at the established place of business and must be available for inspection by the Department. NAC 482.042 and 482.0425

**Supplemental Loan License Plates**

Supplemental loan license plates may only be issued to a franchised dealer who is required under the terms of their franchise agreement to provide loan vehicles of the same make to customers whose vehicles are being serviced or repaired.

Supplemental loan license plates must be registered to a specific vehicle and may only be transferred upon completion of a Supplemental Loan License Plates application, (form OBL 309) and payment of associated fees.
The requesting franchise dealer must provide a copy of the provisions of the franchise agreement that conflict with the limitation of 40 loan license plates.

A statement on company letterhead indicating the average daily repairs to justify the number of loan license plates requested, must accompany this request. The justification must be based on the number of work or service orders issued by the franchise dealer for vehicles of the same make and line as the vehicles, which are covered by the agreement. NAC 482.040

Business License Plates Issued by Other States

It is the policy of the Department to honor the use of business license plates issued by states other than Nevada if the use of such license plates complies with the statutes of the issuing state.

Going Out Of Business

When a business licensee goes out of business, the business principal must notify the Department immediately. The licensee must complete an Out of Business Memorandum (OBL 266). This form is documentation that the business voluntarily went out of business and includes the date the business closed.

Supplies issued to the licensee by the Department must be returned at the time the business ceases to operate. Supplies include 15-Day Drive Away Permits, Short-Term Lessor Permits, Dealer Temporary Placard Security Seals and all business license plates and registrations issued to the business. The dealer or rebuilder is responsible for maintaining all copies of DRS and Short-Term Lessor Permits that were issued by the business for a period of three years from the date of issue.

Occupational salesperson licenses expire on December 31 of each year. The cost for licensees issued throughout the year is the same, there is not prorating of fees. If the license has been expired for 6 months or more, the applicant must submit an updated new salesperson application and pay the original license fee.

A person may not engage in the activities of a vehicle salesperson without first applying for and being issued a salesperson’s license by the Department.

Photo identification is required at the time of submittal of an application. Applicants must be at least eighteen years of age.

Upon receipt of the completed application and fees, the Department may issue a 60-day temporary permit, which will allow the salesperson to engage in sales activities for the employer until the background investigation is completed and a permanent license is issued.

The temporary permit, as well as the permanent license, must be displayed at the employer’s business, in a place where it is visible by the public.
If a person ceases to be employed, the employer must notify the Department within ten days of the date of termination and return the license or temporary permit to the Department.

A salesperson may not re-engage in the activities of a salesperson until a Certificate of Employment (form OBL 236) form is completed by the new employer and is submitted to the Department. A license transfer fee is required.

A salesperson may only be licensed to work at one licensed Nevada dealership.

If a licensed salesperson changes their residential address, the salesperson must submit a written notice of the change to the Department within 10 days after the change occurs.
