FIRE TRUCK LICENSE PLATE APPLICATION

NRS 482.3795

Privately owned fire trucks may be issued special fire truck license plates and registration. Fire trucks registered under this provision may only be operated for musters, exhibition, parades or similar activities and may not be used for general transportation. If a fire truck is used for general transportation, regular annual registration is required.

“Fire Truck” means a motor vehicle designed and manufactured for use in suppressing fires and which is equipped with fire suppression apparatus.

All gasoline powered vehicles and light duty diesel vehicles 1968 and newer, based in Clark and Washoe Counties, are required to have an emission inspection prior to registration.

The owner of the fire truck must provide Nevada evidence of liability insurance at the time of application. Liability insurance must be continuously maintained in your name, for the entire time the vehicle is registered/or should be registered in Nevada.

The initial fee for fire truck license plates is \$15.00, plus a \$1.00 prison industry fee. There is an annual renewal fee of \$5.00. These fees are in lieu of the annual registration fees and governmental services tax.

Application must be made in person at a DMV full service office, or where applicable at a County Assessor’s office.

INSTRUCTIONS

1. Have safety inspection performed on truck
2. Complete this application in full
3. Remit \$16.00 fee
4. Submit application, evidence of Nevada liability insurance, safety inspection emission certificate (if required), and fee to a DMV full service office, or where applicable at a County Assessor’s office.
