Proposed Regulations of the Department of Motor Vehicles, [LCB File No R065-12](#)

The following information is provided pursuant to the requirements of NRS 233B.0603:

1. The need for and the purpose of the proposed regulation or amendment.

The purpose of this public hearing is to repeal regulations which, per the Governor's Executive Order 2011-01 ordered a comprehensive review of all agency regulations, have been identified as no longer necessary or redundant in their definition. The regulations proposed to be amended are directly related to the regulations proposed to be repealed in that they require either language changes or citation changes.

2. Either the terms or the substance of the regulations to be adopted, amended or repealed, or a description of the subjects and issues involved.

The Department is proposing to repeal 78 regulations. These regulations encompass chapters 360A, 365, 445B, 481, 482, 483, 485 and 487 of The Nevada Administrative Code (NAC). As a result of a comprehensive review of all its regulations, and with assistance from the Legislative Counsel Bureau, the Department identified regulations that were either no longer necessary or were redundant in their definition.

The majority of these regulations are definitions that are already defined in statute. In these cases, there is no benefit to either the Department or industry since the terms being defined are not being used in a sense that is different from their natural meaning, or how they are defined in statute. Some of the regulations are no longer required since they were subsequently added to statute.

NAC 482.602 through 482.634 describes the requirements for participation in an electronic lien and title program. Since the Department has decided not to implement this program, the regulations are not needed.

NAC 4483.380 establishes the use of a Medical Advisory Board to assist the Department with developing health and medical standards for use in issuing driver's licenses. A Medical Advisory Board has never been established and is not required by statute. Therefore, the regulation is no longer required. As a result, NAC 483.310 must be amended to delete the "Medical Advisory Board".

3. The estimated economic effect of the regulation on the business which it is to regulate and on the public. These must be stated separately and in each case must include:

(a) Both adverse and beneficial effects. There is no economic effect on business. There is no economic effect on the public.

and

(b) Both immediate and long-term effects. There is no economic effect on business. There is no economic effect on the public.

4. The estimated cost to the agency for enforcement of the proposed regulation.

There is no cost to the Department in the enforcement of these proposed regulations.

5. A description of and citation to any regulations of other state or local governmental agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the proposed regulation overlaps or duplicates a federal regulation, the notice must include the name of the regulating federal agency.

The proposed amendments to the regulations do not overlap that of any other state, local, or federal government agency.

6. If the regulation is required pursuant to federal law, a citation and description of the federal law.

These regulations are not required pursuant to federal law.

7. If the regulation includes provisions which are more stringent than a federal regulation that regulates the same activity, a summary of such provisions.

The proposed amendments do not include provisions which are more stringent than a federal regulation.

8. Whether the proposed regulation establishes a new fee or increases an existing fee.

The proposed regulations do not establish new fees or increases in existing fees.

Persons wishing to comment upon the proposed action of the Department of Motor Vehicles may appear at the scheduled public hearing or may address their comments, data, views, or arguments, in written form to:
